

# Mechanical Science Reports

**Volume 2, Nomor 1, 2024**

## FOREWORD

It is a pleasure for Mechanical Science Reports (MSR) to be the venue and source of great works from researchers and academicians. Mechanical Science Reports (MSR) publishes insightful and knowledgeable articles that have been peer-reviewed. The management and publishing process of this journal is conducted by Badan Kerja Sama Teknik Mesin (BKS-TM) Indonesia.

MSR publishes five articles on recent issues and the development of energy conversion. These papers are experimental, theoretical, applications, and solutions to problems. The qualified published articles would be our concern for the journal that gives a fruitful distribution to future knowledge and technology for human prosperity.

We are also very thankful to those who make this journal publishing possible. Mechanical Science Reports (MSR) is expected to contribute to the development of energy conversion technology and its application in society.

Sincerely,

**Editor in Chief**

**Mechanical Science Reports (MSR)** is an open access journal published by Badan Kerjasama Teknik Mesin (BKS-TM) Indonesia and is engaged in the scope of energy conversion such as new renewable energy, emissions and combustion, fuels and lubricants, mass and heat transfer, thermal and fluid engineering, energy computing, power plant engineering, nano and pico energy, energy materials, energy storage and devices, and other things about energy conversion.

# Mechanical Science Reports (MSR)

Vol. 2, No. 1, 2024

## Table of Contents

### **A Scientometric assessment of titanium-hydroxyapatite composite**

*Ubaidillah, Widyanita Harwijayanti, Joko Triyono, Pamudji Utomo, Retno Setianing, Aishah Abd. Aziz* 1-16

### **The dynamic simulation of the 46SiCrMo6 steel-primary suspension spring in locomotives**

*Muhammad Fatoni Mawarudin, Daryono, Achmad Fauzan Hery Soegiharto* 17-26

### **Improved corrosion resistance Zr-2Ag alloy doped with Co element for biomaterial screw dental implant**

*Diah Gustanti, Muki Satya Permana, Djoko Hadi Prayitno, Turnad Lenggo Ginta, S. Sugiharto* 27-38

### **Powder bio-composite: Initial development of naturally binding Trembesi-Tapioca blends for floor applications**

*Wisnu Suganda; Hudah Alfian, Sri Mulyo Bondan Respati, Muhammad Dzulfikar* 39-48

### **Experimental study of bioethanol addition to enhance power efficiency and torque in the C-series 100 engine**

*Asroful Abidin* 49-60
